

Level 3 Team Leader in equine or animal care

This qualification has been created for individuals who would like to develop the leadership skills necessary for guiding teams dedicated to animal well-being. The course teaches important transferable skills including communication, organisation, and problem-solving, which are crucial for managing a team effectively. Participants will become confident in navigating the complexities of team leading within an animal care business, including riding schools, competition yards, veterinary clinics, and farm parks. Working closely with their selected employer and assigned Trainer Coach, learners will develop the confidence and competence needed to oversee daily operations, ensure compliance with regulations, and maintain high standards of animal welfare.

A Team Leader will develop a wide array of capabilities, including:

Knowledge Development

- Understand different leadership styles and organisational cultures
- Build working relationships and know how to facilitate cross-team working
- Recognise performance management techniques including setting goals and objectives
- Develop time management techniques and learn how to utilise tools to support this
- Know how to deliver a project and understand project lifecycle and roles

Skills Enrichment

- Use effective problem-solving techniques to make decisions
- Applying organisational governance and compliance to ensure effective budget controls
- Communicate effectively using active listening and constructive feedback
- Able to reflect on own performance, seek feedback, and understand why things happen
- Establish trust with and across the team, using effective negotiation and influencing skills

Functional Skills

Maths and English qualifications are an integral element of the apprenticeship standards.

These are implemented by Haddon Training's dedicated Functional Skills team and will be delivered either as individual or group sessions, depending on the learner's requirements. If the learner has completed Functional Skills previously or can provide suitable evidence, such as GCSE certificates or similar, they may be exempt from completing this element of the qualification.

Functional Skills	
Learners will need to complete:	
English	Level 2
Maths	Level 2

Qualification Overview

To achieve the Level 3 Team Leader qualification, the learner must complete:

- All mandatory modules.
- All core behaviours.
- The End Point Assessment, in which all components must be passed.

The apprenticeship is awarded through the successful completion of an End Point Assessment (EPA). This consists of:

- A professional discussion in which the learner is questioned on the knowledge learnt throughout the apprenticeship.
- A work-based presentation submitted on the EPA day. The presentation topic is issued towards the end of the apprenticeship, with ten days to complete.

The qualification will take a minimum of 13 months to complete, dependent on a learner's prior knowledge and skills recorded on a skill scan and individual learning plan.

Mandatory Modules Overview

Knowledge and skills outline
Leading people and managing people, individually and in a team
Completing required documentation for people management such as appraisals
Building relationships – motivating and engaging team members and identifying and maintaining stakeholder relationships
